Riverview manhole lining

Riverview Golf Course, Dublin, GA | RFP 26-1023-01

Prepared for Jerry Trevino | Mechanical Jobbers Marketing / Checked 12 November 2026

Owner: City of Dublin / Dublin, Georgia

A specified lining job that fits your trade

Dublin is buying a manhole repair that includes PPG Raven 405 wastewater lining -- work closely aligned with your rehabilitation and coatings services. The November 24 proposal deadline gives you a reason to act now. Email David Sawyer for the permitted route to the eligible bidding team, then offer the lining scope subject to the City's subcontract approval. [1, 2, 3, 5]

YOUR SALES SCOPE

Wastewater manhole lining and surface-preparation work. [1, 3, 5]

PROJECT POSITION

City proposals due Nov. 24, 2pm EST. Mandatory Nov. 4 visit has passed. [1, 2]

YOUR NEXT MOVE

Email David for the permitted specialist/team route. [1, 2]

Why it fits

01 The issued scope specifies a wastewater epoxy liner. Your company markets manhole rehabilitation and industrial coatings -- a direct trade match. [1, 5]

02 Your abrasive-blasting capability is relevant to preparing a durable coating surface. Build a compliant application proposal around the issued specification. [1, 5]

03 Your municipal and industrial rehabilitation focus supports a specialist proposal to the bidding team. Keep lining separate from the larger replacement and bypass contract. [1, 3]

Your first move

David Sawyer | Purchasing Director

Named RFP contact. Email inquiries; published phone for reference. [1, 2]

sawyerd@dublinga.org | 478-277-5047

Ask: David, what is the permitted route for a specialist lining subcontractor to reach eligible bidders, and how should the City's written subcontract consent be obtained for RFP 26-1023-01?

From insight to action

Where your offer fits

PROJECT NEED	YOUR CONTRIBUTION	NEXT STEP
Specified epoxy lining [1]	Offer the specified application scope. [3, 5]	Check Raven 405 experience, preparation and acceptance.
Surface preparation [1]	Bring your blasting/coatings capability. [5]	Agree the substrate and application sequence with the prime.
Specialist team route [1]	Submit a focused lining scope and price.	Use an eligible team and obtain City written consent.

This is a specialist part of a larger repair, replacement and bypass contract. Price your own scope; the whole contract is not your revenue. [1]

People to know

SOLE CITY RFP ROUTE

David Sawyer: email only for RFP inquiries. Use his published contact on page one; do not approach other City staff. [1, 2]

ELIGIBLE PRIME

Ask David for permitted team routing. Offer the specified lining scope through that route. [1]

What happens next

- **NOVEMBER 16 -- SCHEDULED**

  City's published date for final answers. Check the resulting addenda. [1]

- **NOVEMBER 24 -- DEADLINE**

  Prime proposals due 2pm EST. The site visit and question cutoff have passed; use the authorized route. [1, 2]
