# Roscommon septic replacements

Michigan Saves Septic Replacement Loan Program | Roscommon-area households

Prepared for Nick Sergeant | Sergeant's Septic / Checked 11 November 2026

Owner: Michigan Saves / Michigan EGLE / Michigan; Roscommon-area service route

## Put financing behind your replacement quotes

The program finances work Sergeant's sells: evaluation, pumping and complete septic replacement. For Roscommon homeowners unable to fund the full upfront cost, an approved loan can turn a replacement quote into a project they can commission. Contact Robert "Bob" Foster at Michigan Saves to get your firm into the authorized-contractor route and discuss local project enquiries. [1, 2, 3, 4, 5]

**YOUR SALES SCOPE**

Evaluation, pumping and replacement installation for program-eligible households. [3, 4]

**PROJECT POSITION**

Michigan Saves publishes an active homeowner-financing and contractor application route. [1, 2]

**YOUR NEXT MOVE**

Establish your authorization, then pair the homeowner's permitted project with your contractor bid. [1, 2]

## Why it fits

**01** The program funds replacement installation and related evaluation work. Sergeant's already offers site evaluation, septic installation and excavation—a direct service match. [3, 4]

**02** Eligible project costs include pumping. Your cleaning and installation capabilities give you a coordinated service offer across the replacement project. [3, 4]

**03** Your Roscommon base gives the offer a clear local focus. Start with homeowners in your service area who need a replacement and a way to finance it. [1, 4]

## Your first move

**Robert "Bob" Foster | Michigan Saves**

Partnerships Manager. Published work email and phone below. [5]

rfoster@michigansaves.org | 517-599-8095

**Ask:** Bob, can you help Sergeant's become active in SRLP and explain how contractor referrals, lender payments and Roscommon-area project enquiries are handled?

# From insight to action

## Where your offer fits

| PROJECT NEED | YOUR CONTRIBUTION | NEXT STEP |
|---|---|---|
| Replacement installation [3] | Offer evaluation, excavation and installation together. [4] | Coordinate scope and construction permit with the local health department. |
| Project pumping [3] | Include the required pumping service in the replacement package. [4] | Use a licensed hauler and the program's pumping record. |
| Homeowner financing [1] | Put a clear contractor bid behind the permitted project. | Complete the authorization and homeowner loan process. |

Michigan Saves offers homeowner financing for qualifying replacement projects. The contractor bid and local permit form part of the route to a loan application. [1]

## People to know

**PROGRAM OPERATIONS**

Nishaat Killeen, Director of Programs: nkilleen@michigansaves.org / 517-371-7431. [3, 5]

**GENERAL SUPPORT**

info@michigansaves.org / 517-484-6474 for the program help desk. [2]

## What happens next

- **FIRST — CONTRACTOR SETUP**

  Activate or confirm your Michigan Saves authorization. [2]

- **THEN — HOUSEHOLD PROJECT**

  Local scope and permit, your contractor bid, then the homeowner's loan application. [1]
