Springfield’s RNG opportunity

Noble Hill Landfill and Southwest Wastewater Treatment Plant

Prepared for Timothy Logan | EnviTec Biogas / Checked 10 November 2026

Owner: City of Springfield / Springfield, Missouri

A potential fit for EnviTec’s gas upgrading

Springfield seeks developers for landfill and digester-gas RNG facilities. EnviTec’s upgrading offer is relevant, but this is a developer-led procurement with financing and operating duties. Decide whether to lead a qualified team or supply a developer. Proposals are due 1 December 2026 at 5 p.m. CST. [1, 2, 3]

WHAT YOU COULD SELL

Gas upgrading, pretreatment integration and service; scope to qualify. [3]

CURRENT STAGE

Developer RFP; Addendum #1 and developer Q&A listed. [1, 2]

NEXT MILESTONE

1 Dec 2026, 5 p.m. CST: proposal deadline in current notice. [1]

Why it fits

01 The City seeks RNG from landfill and wastewater gas. EnviTec describes both as potential feed gases after preliminary purification; site-specific suitability still needs checking. [2, 3]

02 EnviThan includes membrane separation and gas conditioning. Compare the current gas data and pipeline requirements before selecting a package or promising performance. [3]

03 The City seeks financing, construction, operation and gas marketing. EnviTec must choose a qualified developer team or an equipment-partner route; neither appointment is established. [2]

Your first move

Cara Burch | Environmental Services

File access: Cara Burch. Project phone below: Erick Roberts. Check contact rules. [1, 2]

cburch@springfieldmo.gov | 417-864-2001

Ask: Please provide access to the RNG technical files and confirm the current RFP/addenda and permitted communications route. We are assessing our role before preparing a response.

From insight to action

Where your offer fits

PROJECT NEED	YOUR CONTRIBUTION	NEXT STEP
Landfill / digester gas [2]	Screen upgrading and pretreatment integration. [3]	Obtain gas flow, contaminants and pipeline-quality requirements.
Developer obligations [2]	Assess a lead-team or equipment-partner role.	Confirm finance, operations, marketing and team eligibility.
Proposal preparation [1, 2]	Use the current RFP and addenda.	Check all addenda, communications rules and submission instructions.

The City seeks private financing and long-term operation. No City-funded equipment order, supplier budget or award to EnviTec is established. [2]

People to know

TECHNICAL ROUTE

Erick Roberts: 417-864-2001; eroberts@springfieldmo.gov. Confirm permitted questions first. [1, 2]

PURCHASING ROUTE

Cara Burch: file access and proposal attention; no selected developer identified in reviewed notices. [1, 2]

What happens next

- **1 DEC 2026 — CURRENT NOTICE**

  Proposals due by 5 p.m. CST; recheck addenda before submission. [1]

- **JAN 2027 — CITY EXPECTATION**

  Notice of Intent to Award anticipated; this is not a guaranteed award date. [1]
